

Nevada LIVE

(Liability Insurance Validation
Electronically)

Your Nevada DMV Representatives

- Martha Barnes, Administrator of Central Services
- Allison Wall, Processing Center Manager
- Doreen Rigsby, Insurance Verification Program Supervisor

- Sondra Baker, DMV Information Technology
- Ron Swenson, DMV Information Technology

- Terri Carter, Vehicle Programs Manager, R&D
- Bernadette Nieto, Research & Development
- Andy McCool, Research & Development

What are the improvements?

Web services will allow confirmation of Nevada liability insurance coverage instantly.

The DMV can verify all motor vehicles registered in Nevada have liability coverage.

The DMV will identify uninsured vehicles sooner.

No more tapes or diskettes!

Reporting Methods

Beginning February 2010

- Web Services (Group A)
- Secure FTP (Group B – More than 500 vehicles)
- Excel (Group C – Less than 500 vehicles)

Changes for DMV Customers

Beginning February 1, 2010

The insurance card must be presented at the time of new (first time) or renewal registration or when obtaining different license plates.

The card **must** contain these statements:

- “Coverage meets the requirements set forth in [NRS 485.185](#)”
and
- “This card must be carried in the insured motor vehicle for production upon demand.”

If the card does not contain these statements, the customer will need to go to their insurance company to obtain the correct card for proof of Nevada liability insurance.

- Customers must respond to a request for insurance information within 15 days.
- Nevada has no grace period. A one day lapse in insurance coverage could result in a suspension of the registration.
- A fee of \$250 will be required to reinstate the registration privileges.

Providing New or Updated Policy Information

REGISTERED OWNERS or AGENTS must report policy number and/or insurance company name changes to DMV as soon as possible.

Use the web! Insurance information can be updated on the web at www.dmvnv.com by the registered owner or their agent.

Accessing the Web Insurance Record

Searching Data

For the vehicle:

- VIN
- Last four characters of the license plate

For an Individual:

- Nevada Driver's License Number

Communication with the Insurance Industry

- ✓ Bi-weekly conference calls are continuing.
- ✓ 357 of the 400 Nevada insurance companies have submitted their Administrative Authorization form.
- ✓ The number of insurance companies in each group are:
 - 193 Group A
 - 70 Group B
 - 94 Group C
- ✓ Final Guidelines and the Administrative Authorization form are on the web at www.dmvnv.com/nvlive.htm

Programming Status

DMV programmers are working with the Nevada Department of Information Technology and pilot insurance companies establishing connectivity for Secure FTP and web services.

Testing is in progress for both of these services.

Documentation to allow access is finalized.

DMV programmers are programming the validation process.

The manual transaction to add insurance information is being programmed.

All insurance companies will be contacted individually by DMV for testing prior to implementation.

Business Processes Status

Standard mailings for customers and the insurance industry have been revised and are being reviewed internally.

Before February 1, 2010, 25 forms and 34 internal policies and procedures will be revised and finalized.

DMV's Public Information Officer is working with the Nevada LIVE team to provide the general public with information regarding the changes to the insurance program.

DMV's Training Unit is involved with the internal status meetings and will be providing training to staff.

THANK YOU!
