

Wrecker and Tow Car Operator Guide

Revised 2016

PREFACE

The Nevada Department of Motor Vehicles has prepared this guide to assist Nevada Automobile Wreckers and Tow Car Operators when conducting business with the Department. It was created as an informational and instructional reference, and attention to the detailed information and examples will ensure proper completion of forms required to register and/or title vehicles in the State of Nevada.

Implementation of requirements as outlined in this guide and attention to detail when completing forms will be beneficial to you, your customers and the Department. Documents properly prepared and submitted will ensure that our records are correct. This allows the Department to respond to inquiries from consumers, vehicle industry members and law enforcement with up to date, accurate information.

If you have any suggestions that may help improve this guide, please provide them in writing to:

SECTION I – GENERAL INFORMATION

Guidelines

Always type or print in black or dark blue ink.

The owner's full legal name and address information must be recorded on registration and title documents exactly as it reads on the owner's driver's license.

Ensure the Vehicle Identification Number (VIN), year, make, odometer readings and registered owner and legal owner information are consistent on all documents.

Signatures must always be handwritten, unless waived by the Department because the submittal is done by electronic means. A printed release will not be accepted unless accompanied by a notarized or witnessed statement (from the person in question) stating that the signature is a legal signature.

Do not use correction fluid or correction tape.

Do not alter any information on documents.

A release should be the same, as it appears on title documents, i.e., Elizabeth should sign as Elizabeth.

All documents must be originals, unless certified true copies of the original document. Only certain documents can be accepted as true and exact copies.

Importance of Accuracy

The Department of Motor Vehicles uses the VIN as the primary identifier for entry and retrieval of records. It is therefore critical that all documents are completed using the correct VIN.

TO AVOID ERRORS:

- Use the entire VIN at all times.
- Ensure the VIN is entered or recorded accurately. It is best to use block letters.
- If the VIN is handwritten, try to avoid the following most common errors:

<u>LETTER</u>	<u>MAY BE MISTAKEN FOR</u>
B	13 or 8
D	0
G	6 or C
J	T or I or 5
R	K
S	5

Y
Z

4 or H
2 or a 7 on a line

“I” and “1” are often confused. The letter “I” is rarely used in a VIN.

The letter “O” is never used in a VIN, with the exception of state assigned VINs, such as those that are assigned by the states of Colorado (i.e., COLO123456) or Missouri (DR000000MO or DRMVB0000000000MO).

Vehicle Identification Number (VIN) Information

Since 1954, American automobile manufacturers have used a Vehicle Identification Number (VIN) to identify and describe a vehicle.

Since 1981, all manufacturers of vehicles sold in the United States are required to use a standardized 17-digit VIN structure. When the department is provided with a vehicle with an 18-digit VIN, the VIN will be verified before the vehicle information is entered.

Variations exist in the location of a VIN and in the systems used for a VIN; they may vary by year of manufacture and between manufacturers.

A VIN should always be verified by a physical inspection of the vehicle.

NRS 487.470 Section 4

1. If a licensed automobile wrecker, in addition to any other bond required by NRS 487.047 to 487.200, inclusive, procures and files with the Department a good and sufficient bond in the amount of \$50,000, with a corporate surety thereon licensed to do business in the State of Nevada, approved as to form by the Attorney General, and conditioned that the applicant conducts his or her relevant activities in accordance with the provisions of this section, the wrecker may use the procedure set forth in this section to process a motor vehicle as parts or scrap metal. The additional bond described in this subsection may cover more than one location at which the licensed automobile wrecker does business, if the wrecker holds an ownership interest of 51 percent or more in each such business location.
2. Upon obtaining a motor vehicle that is to be processed as parts or scrap metal, a licensed automobile wrecker who has procured and filed the additional bond described in subsection 1 and who wishes to use the procedure provided in this section:

No action may be brought under NRS 41.031 or against an officer or employee of the State or any of its agencies or political subdivisions, which is based upon any injuries to any person or property arising from or incident to the act of processing a motor vehicle for parts or scrap metal as authorized pursuant to this section.
4. If a licensed automobile wrecker submits to the Department, the report described in subsection 2 and the Department confirms that the motor vehicle, which is the subject of the report, has been processed as parts or scrap metal, the

Department shall issue a nonrepairable vehicle certificate for the motor vehicle.

For more information on this process, please refer to the Wrecker's Electronic Non-Repairable Manual.

Acquiring Vehicles

Nevada automobile wreckers may acquire vehicles in the following manner:

1. By direct purchase, with the owner providing title documents.
2. By direct purchase, with an automobile wrecker providing a salvage title, non-repairable vehicle certificate or junk certificate.
3. By direct purchase, with an insurance company or its agent providing a salvage title, non-repairable vehicle certificate.
4. By direct purchase, with a salvage pool providing salvage title, non-repairable vehicle certificate or junk certificate.
5. Through receipt of a vehicle removed from public or private property at the request of an enforcement agency, owner, or person in lawful possession of the property. The lien sale process must follow pursuant to NRS 108.265 through 108.367 inclusive.
6. Lien Process.
7. Junk Certificate: Issued to a licensed wrecker or tow operator.

Acquiring Parts of Partial Vehicles

When an automobile wrecker acquires parts of a vehicle through purchase or exchange, a bill of sale from the owner of the parts must be maintained.

1. If a vehicle that has been partially dismantled is acquired, a written statement from the owner, listing those parts that have previously been removed is required.
2. If the part includes the frame or other major component, a salvage title may be required.

Determining an Entire Vehicle or Partial Vehicle

1. Whenever an entire salvage vehicle is sold to any person by a licensed automobile wrecker, the automobile wrecker shall deliver a properly endorsed salvage title to the buyer for such an entire salvage vehicle.
2. A salvage vehicle shall be deemed an entire salvage vehicle:
 - a. If all the following essential components are included and identifiable as

coming from the same salvage vehicle:

1. The cowl assembly;
 2. The floor pan assembly;
 3. The passenger compartment;
 4. The rear clip assembly; and
 5. The roof assembly; and
- b. In addition to the essential components required pursuant to paragraph (a):
1. If the salvage vehicle was manufactured with a conventional frame, the conventional frame is included and identifiable as coming from the same salvage vehicle;
 2. If the salvage vehicle was manufactured with a unibody, the complete front inner structure is included and identifiable as coming from the same salvage vehicle;
 3. If the salvage vehicle is a truck which was manufactured with a conventional frame, the conventional frame and the truck cab assembly are included and identifiable as coming from the same salvage vehicle; and
 4. If the salvage vehicle is a truck, which was manufactured with a unibody, the complete front inner structure and the truck cab assembly are included and identifiable as coming from the same salvage vehicle.
3. A salvage vehicle that does not satisfy the requirements of subsection 2 is deemed a part or parts of an entire salvage vehicle.

Motor Homes

Motor homes are vehicles described as permanently attached to a self-propelled chassis and are designed for use as temporary living quarters. Nevada Revised Statutes defines three types of motor homes.

Note: The legal maximum width of a recreational vehicle is 102 inches excluding mirrors, lights and other devices required for safety; and an awning and any hardware used to attach the awning, but it cannot extend beyond any mirror.

Mini motor home (NRS 482.066): A vehicular-type unit designed for temporary living quarters for travel, camping or recreational use, which is:

1. A structure attached permanently on a self-propelled chassis; or
2. A portable unit designed to be affixed permanently to a truck chassis with cab, which is designated as a mini motor home by the manufacturer.

Motor home (NRS 482.071): A structure:

1. Attached permanently to a self-propelled motor vehicle chassis;
2. Designed as a temporary dwelling for travel, recreational or camping use; and
3. When assembled for the road, having a maximum body width of 102 inches.

Chassis-mount camper (NRS 482.0151):

A portable unit designed to be permanently affixed to a truck chassis and cab, and so constructed as to provide temporary living quarters for travel, camping or recreational use.

In all cases, the chassis/frame number is used as the Vehicle Identification Number (VIN). The make of the vehicle is the motor home name, not the chassis/frame manufacturer.

Example: Winnebago makes the Itasca and Fleetwood makes the Tioga. The makes are therefore Itasca and Tioga; Winnebago and Fleetwood are not used.

The vehicle year is established by the manufacturer on the vehicle's original documentation.

In all cases, the vehicle length must be included on the registration and title documents as part of the vehicle description.

Recreational park trailer (NRS 482.1005) means a vehicle, which is primarily designed to provide temporary living quarters for recreational, camping or seasonal use and which:

1. Is built on a single chassis mounted on wheels;
2. Has a gross trailer area not exceeding 400 square feet in the set-up mode; and
3. Is certified by the manufacturer as complying with Standard No. A119.5 of the American National Standards Institute.

Note: The Department will issue a title only for recreational park trailers because they are over 102 inches in width. Moving a recreational park trailer requires a special movement permit issued by the Department of Transportation.

SECTION II - OWNERSHIP DOCUMENTS AND FORMS

Nevada Certificate of Title

Nevada Title

NRS 482.245, 482.260, 482.285 and 482.400

There are currently several valid styles of Nevada Certificates of Title (Form VP-2 and RD-2) in circulation. For the purpose of this guide, only the three most recent styles will be addressed (Revisions 1/2016, 8/2010 and 1/2006).

The registered owner or seller must sign the certificate of title exactly as the name appears on the face of the certificate of title.

- If there is more than one registered owner or seller, and they are joined by “and,” the signature of each owner or seller is required.
- If there is more than one registered owner or seller, and they are joined by “and/or” or “or,” only one of the owner’s or seller’s signature is required.
- If there is more than one registered owner or seller, and not joined by “and” or “and/or” or “or,” the signature of each registered owner or seller is required. The Department considers no name indicator as “and” in these cases.
- If the registered owner or seller information is in the name of a business, the name of the business must appear along with the signature of an authorized business representative.
- Buyer information must be completed indicating exactly how the new Certificate of Title is to read, using the buyer’s full legal name as it appears on their driver’s license.

 - (1) Has no structural damage; and
 - (2) Is missing only tires, wheels, audio or video equipment, or some combination thereof.
3. For the purposes of this section, the model year of manufacture is calculated based on a year beginning on January 1 of the calendar year in which the damage occurs.

- 13. **Owner(s) Name and Address:** The name and address of the person or persons the Certificate of Title is issued to.
- 14. **Lienholder(s) Name and Address:** The name and address of the legal owner of the vehicle who holds the security interest if different from number 13.
- 15. **Lienholder(s) Release:** All Nevada Certificates of Title that show a lienholder require a release of lien to transfer ownership. The lienholder or authorized agent of the lienholder must complete this section. The signature of the lienholder or the authorized agent and the date of the signature are required to complete the release. If the lienholder is a business, the business name must appear along with the signature of an authorized representative of the business.
- 16. **Government owned vehicles subject to registration in Nevada and sold or liquidated through a licensed Nevada auction should NOT stamp on to the title.** In the area indicated by #16, write SOLD THROUGH, AUCTION NAME and the initials of the authorized representative of the auction company.
- 17. **Full Legal Name and Address of Buyer(s):** Record the registered owner's full legal name exactly as it appears on the customer's driver's license, identification

card, or business license. This name will be recorded on the vehicle registration certificate and Certificate of Title when created. Customers purchasing a vehicle(s) for a business are not required to present their business license.

Note:

- If the registration is to read “doing business as” enter “DBA” preceding the business name.
- If the vehicle is leased, the words “Lessee” and “Lessor” must be included after the full legal name
- If there is more than one Lessee, separate the Lessees with a semi-colon “;”.

18. Nevada Driver’s License, Identification Card Number, or FEIN for businesses: Enter the number based on the document presented during the purchase transaction. The DMV will use these numbers to ensure the full legal name of the owner is placed on the registration and title.

Note:

- If the customer does not have a Nevada driver’s license or identification card, “No Nevada DL or ID” must be printed in the registered owner’s information area.
- Customers purchasing a vehicle(s) for a business that does not have an FEIN (Federal Employer Identification Number), enter “No FEIN.”
- Do not enter or use the customer’s social security number.

19. And/Or: If the registration and title are in more than one name, the appropriate box must be marked to indicate “and” or “or.” Using “and” will require all persons on the title to sign the title to release interest in the vehicle. “OR” will allow for one person to sign the title to release interest in the vehicle, if there are two or more recorded owners.

20. Odometer Reading: The odometer reading must be recorded exactly as it shows on the vehicle’s odometer apparatus, excluding tenths. The seller(s) must complete the Odometer Statement to the best of their knowledge.

21. Odometer Declaration: If the odometer reading is not the actual mileage of the vehicle, one of the statements must be checked. The Certificate of Title will be branded accordingly.

22. Signature and Printed Name of the Seller(s)/Agent/Dealership.

23. DMV issued Dealer’s License Number (if applicable).

24. Date of Sale: The actual date ownership of the vehicle was transferred.

25. Signature and Printed Full Legal Name of the Buyer(s).

Note: Any alteration or erasure voids a Nevada Certificate of Title. The control number in the lower right hand corner of the Certificate of Title is not the title number. The Department uses this number internally.

Out-of-State Salvage Certificates

Salvage titles issued by other states must be properly endorsed and must indicate and document a complete “chain of ownership” for the vehicle.

Contact the Department prior to accepting documents for a salvaged or junked vehicle, as laws from other states vary, and there may be instances where the Department must determine whether the documents can be accepted and whether a Salvage Title can be issued.

Retention of Salvage Vehicles

An insured party (registered owner) may elect to retain a vehicle that has been declared a total loss insurance settlement. The insurance company or authorized agent must obtain the signature of the registered owner on the Application for Salvage Title or Non-Repairable Vehicle Certificate.

The insurance company must apply for a Salvage Title on behalf of the person who is retaining the salvage vehicle. The vehicle may not be sold or transferred until the registered owner has received a Salvage Title.

An owner of a total loss salvage vehicle may sell the vehicle with the properly endorsed certificate of title, without making any repairs to the vehicle, only to a salvage pool, automobile auction, rebuilder, automobile wrecker or a new or used motor vehicle dealer.

Application for Salvage Title or Non-Repairable Vehicle Certificate

(Form VP-213)

An Application for Salvage Title or Non-Repairable Vehicle Certificate (Form VP213) must be submitted with properly endorsed ownership documents, including an odometer disclosure and applicable fees.

Within two days after receipt in the Department’s Carson City office, the Department will issue a Salvage Title for the vehicle. The Salvage Title will be mailed to the new owner/purchaser as documented on the submitted title documents.

Before ownership interest in a salvage vehicle may be transferred, the Department must issue a Salvage Title. The titled owner or Insurance Company must forward the endorsed title with an Application for Salvage Title or Non-Repairable Vehicle Certificate to the Department within 30 days after the vehicle becomes a salvage vehicle.

A Duplicate Salvage Title may be issued by completing an Application for Salvage Title or Non-Repairable Vehicle Certificate, checking the transaction type box, indicating, “Duplicate.”

Requests for Salvage Titles or Non-Repairable Vehicle Certificates must be made through:

Non-Repairable Vehicle Certificate

(Form VP-161 / RD2-NR)

A Non-Repairable Vehicle is defined as a motor vehicle, other than an abandoned vehicle that:

1. Has value only as a source of parts or scrap metal;
2. Has been designated by its owner for dismantling as a source of parts or scrap metal;
3. Has been stripped of all body panels, doors, hatches, substantially all interior components and substantially all grill and light assemblies; or
4. Has been burned, destroyed or otherwise damaged to such an extent that it cannot be returned to a condition, which is legal for operation on the highways of this state.

A Non-Repairable Vehicle Certificate will be issued, upon application, for a vehicle as described in the definition (follow directions for Application for Salvage Title or Non-Repairable Vehicle Certificate). A Non-Repairable Vehicle Certificate must be issued before the ownership interest in a non-repairable vehicle may be transferred.

Once a vehicle has been issued a Non-Repairable Vehicle Certificate, the vehicle may not be registered or issued a Certificate of Title, or be restored for use on Nevada highways.

A vehicle for which a Non-Repairable Vehicle Certificate has been issued may not apply for or be issued a Salvage Title.

Transfer of ownership for a Non-Repairable Vehicle may only occur between a licensed automobile wrecker, dismantler or recycler. A licensed automobile wrecker, dismantler or recycler may only process a Non-Repairable Vehicle as parts or scrap metal.

A Duplicate Non-Repairable Vehicle Certificate may be issued by completing an Application for Salvage Title or Non-Repairable Vehicle Certificate, checking the transaction type box, indicating, "Duplicate."

No fee is assessed for a Non-Repairable Vehicle Certificate.

A lien release or satisfaction of lien enables a lienholder to release the security interest in a vehicle. It may be used with the Certificate of Title or with an application for a duplicate Certificate of Title for a printed title.

The lien release must include:

1. A complete description of the vehicle, including the vehicle identification number, year, make, and model.
2. The registered owner's full legal name.
3. The registered owner's address.
4. The printed name of the lienholder.
5. The address of the lienholder.
6. The phone number of the lienholder.
7. The printed name of the lienholder representative.
8. The lienholder representative's title if the lienholder is a business.
9. The signature of an authorized representative.
10. A Lien release must be signed in the presence of a Notary Public or authorized Nevada Department of Motor Vehicles representative. If witnessed by a Notary Public, the stamp and signature of the notary public must appear on the affidavit. If witnessed by an authorized Department representative, the name and validation stamp or employee identification number, as applicable, must appear on the affidavit.

Note: A Lien Release (Form VP-186) is available from the Department. However, other forms will be accepted provided they contain the information specified above.

Power of Attorney

A Power of Attorney is a written legal document whereby one individual conveys to another the legal right to act on his or her behalf.

If the right to release interest in a vehicle has been conveyed to another person or firm by Power of Attorney, the original Power of Attorney must accompany the title documents, and it must contain a complete description of the vehicle, including the vehicle identification number, year, make and model.

If a general Power of Attorney is used to convey an individual's legal rights, a photocopy attached to the title documents is acceptable.

A Power of Attorney becomes null and void upon the death of the individual who conveyed his or her rights to another.

The Power of Attorney must be exercised by the person or firm named as representative on the form. To properly exercise the Power of Attorney, the name of the owner must be listed prior to that of the representative.

- Example for an individual:

Sharon Smith by Jane Doe, P of A

- Example for a business:

Sharon Smith by Morrison's Garage George Morrison, P of A

The Power of Attorney must be exercised on the Certificate of Title or document for which the authority was granted. Otherwise, it is null and void.

The Power of Attorney must be signed in the presence of a Notary Public or authorized Nevada Department of Motor Vehicles representative. If witnessed by a Notary Public, the stamp and signature of the notary public must appear on the affidavit. If witnessed by an authorized Department representative, the name and validation stamp or employee identification number, as applicable, must appear on the affidavit. A licensed Nevada dealer's signature is not required to be acknowledged by a Notary Public on documents the dealer must file with the Department, except in regard to deposit in lieu of bond. (NRS 482.3275)

When the Power of Attorney is used to release ownership of a vehicle, the Certificate of Title must be signed in the appropriate area by the individual appointed as Power of Attorney.

If a specific power of attorney is used to release ownership of a vehicle, a copy is acceptable only if it is a certified copy. The following statement must be included on the copy:

"I hereby certify that this is a true and exact copy of the original that is being held in our files. I further certify the original will be available during normal business hours for review by Department of Motor Vehicles personnel if necessary."

If a power of attorney is given to a business, the certification statement must include the

business stamp or the printed or typed name of the business, the signature of the individual authorized to act on behalf of the business and the printed or typed name of the person certifying the copy of the specific power of attorney.

A general or specific power of attorney cannot be used to disclose the odometer reading on vehicles nine years old or newer.

For every abandoned vehicle, a tow company or wrecker must have in their possession one of the following documents as proof the vehicle qualifies as an abandoned vehicle:

- For a law enforcement ordered impound of an abandoned vehicle, a law enforcement agency impound report identifying the vehicle as impounded as an "abandoned vehicle".

If a vehicle is impounded for some other reason, the impound report will indicate that fact i.e., "impounded" or "stored" and the appropriate box on the form will be checked. For those categories of tow, there should be an explanation written on the form describing whether or not there are holds on the vehicle and the terms or conditions for release of that vehicle. Vehicles impounded by law enforcement or other enforcement agencies that are not classified "abandoned" may only be processed by a tow company or wrecker in accordance with the provisions of NRS 108.265 to NRS 108.367 inclusive. Such vehicles include but are not limited to, vehicles impounded and stored as a result of a traffic accident, traffic citation, arrest, or for any reason not classified as "abandoned". Such impounds may NOT be reclassified or the reason for towing changed, to allow the vehicle to be processed as an abandoned vehicle.

- If an abandoned vehicle has been towed as a result of a property owner or property manager's request to remove an abandoned vehicle from their private property, a "PRIVATE PROPERTY ABANDONED VEHICLE RELEASE" (POR) form is required by the Department as proof of a private property abandoned vehicle impound.

A DMV Appraiser may request documents from a tow company operator or wrecker to support their acquisition of an abandoned vehicle listed on the companies abandoned vehicle transmittal sheet. If such a request is made, the tow company operator or

wrecker must provide either a "POR" or the police impound report indicating the vehicle was abandoned.

The DMV Appraiser may request additional documents to support the tow company or wreckers acquisition of a vehicle. If a tow company operator or wrecker refuses or is unable to produce the required documents or additional supportive documents that support the tow company or wrecker's possession of a vehicle, the DMV Appraiser may refuse to appraise that vehicle.

The only alternative to the law enforcement impound or private property abandoned vehicle release would be an order issued by a court having jurisdiction declaring a vehicle or group of vehicles be removed from private or public property as abandoned vehicles.

Private Property Abandoned Vehicle Release

"Private Property Abandoned Vehicle Release" or (POR) form;

- The "POR" form is used by the Tow Company or wrecker when they are requested to remove an abandoned vehicle or vehicles by a private property owner or property manager.
- With the exception of the spaces provided for "Registered and/or Legal Owner" information, which may not be known for abandoned vehicles, the form must be completed in its entirety.
- The form is maintained as a record of the tow company or wreckers authorization to remove a vehicle from private or public property. The "POR" must be produced when requested by a DMV Appraiser or law enforcement officer making inquiries regarding the vehicle or its removal from private or public property.

Abandoned Vehicle Liens

NRS 487.205

Automobile wreckers and tow car operators who remove abandoned vehicles from public or private property as prescribed by NRS 487.270 may place a lien on the vehicle for towing and storage charges.

A vehicle must be declared as abandoned on public property by a law enforcement agency and on private property by the property owner or person in lawful possession of the private property.

Vehicles impounded by law enforcement as a result of a traffic accident, a traffic violation or arrest, or received by the tow car company operator or wrecker for any other non-abandoned vehicle tow, may not be reclassified as abandoned vehicles regardless of their value.

A lien associated with towing, storage and administrative fees for vehicles impounded under those conditions must be processed as labor liens for towing and storage in accordance with the provisions of NRS 108.265 to NRS 108.367 inclusive.

A tow company operator or wrecker cannot declare or reclassify vehicles as “abandoned” as a result of a law enforcement impound for the purpose of circumventing the requirements of chapter 108 of the Nevada Revised Statute.

As prescribed by NRS 706.4479, automobile wreckers and tow car operators must make every reasonable attempt and use all resources reasonably necessary, as evidenced by written documentation, to obtain the identity of the owner and any other necessary information from the agency charged with the registration of the motor vehicle in this State or any other state within:

- 21 days after placing the motor vehicle in storage if the motor vehicle was towed at the request of a law enforcement officer following an accident involving the motor vehicle; or
- 15 days after placing any other motor vehicle in storage.

The tow operator or wrecker shall attempt to notify the owner of the vehicle by registered or certified mail as soon as possible, but in no case later than 15 days after identification of the owner is obtained for any motor vehicle. Pursuant to NRS 706.4477, if a request to tow is by the owner or agent of the owner of real property, it is presumed the registered owner abandoned the vehicle and is responsible for the cost of removal and storage. The registered owner may rebut the presumption by showing the he transferred his interest in the motor vehicle or prove the vehicle was stolen.

If an operator includes in his tariff a fee to be charged to the registered and legal owner of a vehicle for the towing and storage of the vehicle, the fee may not be charged:

- For more than 21 days after placing the motor vehicle in storage if the motor vehicle was towed at the request of a law enforcement officer following an accident involving the motor vehicle; or
- For more than 15 days after placing any other vehicle in storage,

- Unless the operator complies with the notification requirements.

Note: The 15 days referred to in this section under “Abandoned Vehicle Liens” should not be confused with, or applied to, NRS 487.210 when defining an abandoned vehicle, and does not qualify a vehicle as abandoned should there be no response to the notice sent. In order for the provisions of NRS 487.250, subsections 3 and 4 to apply, the vehicle must first be included on an abandoned vehicle transmittal form, be confirmed by a Department representative as acquired by the Tow Company or wrecker as an abandoned vehicle, then appraised by a Department representative at a value of \$500 or less.

NRS 706.4468 allows the Nevada Transportation Authority to reduce any charge for preparing or satisfying a lien, which is filed by the tow operator if the Nevada Transportation Authority determines that all or part of the charge is attributable to the operator’s failure to prepare or satisfy the lien in a timely manner.

If a licensed Nevada Automobile Wrecker tows the vehicle: the tow bill must be completed in full and must contain the following information:

- Business name, address, telephone number and certificate number or DMV business license number.
- Address of the facility where the vehicle is stored.
- Date and time of the request for towing including designations to “am” or “pm”.
- Name and address of the registered owner of the towed vehicle, if available.
- The year, make, model, vehicle identification number, license plate number and state of issuance.
- Exact location from where vehicle was towed.
- Address of the location to which the vehicle was towed, if different from the where the vehicle is being stored.
- The time the wrecker was dispatched to tow the vehicle and the reading of the odometer of the tow vehicle at the beginning of the trip.
- The time of the arrival of the tow car at the site of the car to be towed and the reading on the odometer upon its arrival.
- The time of the departure of the tow car from the site of the vehicle to be towed.
- The time of the arrival of the tow car at the location to where the vehicle was towed and the reading of the odometer upon its arrival.
- The total time, this passes while at the site of the towing in hours and minutes.
- The exact mileage and hourly charges.
- If an extra person was required, the time he was sent to the site and the time he returned.

- A detailed listing of all charges and, if charges are based on time, the starting and ending times. If more space is needed for the listing, a separate sheet of paper must be attached to the bill and a notation made on the bill that an additional sheet is attached. If the tow was requested by a constable, include the \$50 fee.
- The date and the time the storage of the vehicle started and ended and a notation of whether the vehicle was stored inside a locked building or in a secured, fenced area.
- Statement of total charges for towing.
- Of the action the registered and legal owner of the vehicle may take to recover his vehicle while incurring the lowest possible liability in accrued assessments, fees, penalties or other charges, and
- Of the opportunity to rebut the presumptions set forth in NRS 487.220 and 706.4477.

Abandoned Vehicles Left at Salvage Yard

When an insurance company has relinquished all claims and interests to a vehicle, because of a lack of coverage, claim denial or similar reason:

The insurance company or their agent shall send a notice by means of registered or certified mail to the last known address of record on file with the Department or other State of jurisdiction of the vehicle, to the legal and registered owners of the vehicle, and to the salvage pool or other place of storage of the vehicle indicating that the insurance company relinquishes all claims and interest in the vehicle;

- The notice sent to the registered and legal owners of the vehicle must specify the address of the salvage pool or other place of storage of the vehicle together with the conditions for the release of the vehicle.
- The notice shall specify a period of time not to exceed 15 days from the date of receipt of the notice for the registered or legal owner(s) of the vehicle to respond and arrange for removal of the vehicle from the salvage pool or other place of storage of the vehicle.
- Should the registered or legal owner of the vehicle fail to respond to the notice, or should the registered or legal owner of the vehicle fail to make arrangements to recover the vehicle from the salvage pool or other place of storage within the 15 days specified in the notice, the insurance company or its agent shall;
 - Forward a copy of all correspondence and return receipts for delivery of the registered or certified mail, together with verification of the legal address of the registered and legal owners of the vehicle, to the salvage pool or other place of storage of the vehicle.
 - Upon receipt of all documentation specified above, the salvage pool or other place of storage of the vehicle shall have the option to;
 - Dispose of the vehicle in accordance with the provisions of NRS 108.265 to NRS 108.367, inclusive, or;

- Declare the vehicle to have been abandoned on their property, and; Have the vehicle removed by a licensed wrecker or tow company and processed as an abandoned vehicle in accordance with the provisions of NRS 487.230.
- In the case of a vehicle for which there has been settlement of a claim but the owner retains ownership of the vehicle and the insurance company thereafter relinquishes all claims and interest in the vehicle, or;
- The owner of the retained salvage vehicle fails to reclaim and remove or cause to be removed the vehicle from the salvage pool;

It remains the insurance company's responsibility to secure a salvage title for these vehicles in the name of the owner:

- In the case of an "owner retained" vehicle where the owner cannot or does not provide the vehicle title to the insurance company, and does not reclaim and remove or cause to be removed the vehicle, the insurance company shall;
 - Process the vehicle in accordance with the procedures set forth at the beginning of this section under "ABANDONED VEHICLES LEFT AT SALVAGE YARD".
 - In the case of a vehicle for which insurance claims have been settled, but for which no title has been secured within the specified time limit and compliance with NRS 487.800 is not possible. These cases become a matter for the courts to determine and the following is required:
 - The insurance company or its agent must secure a court order requiring DMV to issue a salvage title in the name of the insurance company.

If a motor vehicle that is placed in storage was towed at the request of a law enforcement officer following an accident involving the motor vehicle, the operator shall not:

1. Satisfy any lien or impose any administrative fee or processing fee with respect to the motor vehicle for the period ending 4 business days after the date on which the motor vehicle was placed in storage ; or
2. Impose any fee relating to the auction of the motor vehicle until after the operator complies with the notice requirements set forth in NRS 108.265 to 108.367, inclusive.

Prior to the sale, Nevada law requires the lien claimant to meet a number of requirements.

The following information is intended to help you process a lien sale in a minimum amount of time, while meeting all statutory requirements. Samples of letters and forms are provided for your convenience.

Requests for Extension of Time for Submitting Lien Sale Documents

If a lien claimant is unable to submit the Lien Sale Affidavit and title documents to the Department within the statutory time frame, the lien claimant may request an extension of time.

Extension requests must be submitted within the statutory time frame required for submission of the Lien Sale Affidavit:

- Thirty Days from the date of sale.

A request for an extension must be submitted to an Occupational and Business Licensing office on a Lien Sale Extension Request (Form OBL-316). The request must explain why the lien claimant is unable to submit the required documents within the regulatory time frame. The lien claimant must sign the form. A photocopy of the Lien Sale Affidavit must accompany the request. Refer to NAC 108.120.

An extension should be requested only when necessary and will be granted on an exception only basis. Lien claimants are required, by regulation, to send title documentation to the Department within the required time frame and may be subject to an audit, administrative fine or administrative action against their business for failure to comply.

The Lien Sale Extension Request (Form OBL-316) indicating approval or denial will be mailed to the lien claimant. If the request is denied, the reason will be marked on the extension form.

Authority to Recover Claim Not Paid By Sale

The remedy for enforcing the lien provided in NRS 108 does not preclude any other remedies allowed by law for the enforcement of a lien against personal property nor bar the right to recover so much of the lienholder's claim as is not paid by the proceeds of the sale of the property.

Validity May Be Contested

NRS 108.350

Nothing contained in NRS 108.270 to 108.360 precludes the owner or any other person having an interest or equity in the property, from contesting the validity of the lien. Upon receipt of the filing of a court document showing an interested party has contested a lien the Department will place a "hold" on the vehicle record to prevent transfer until the court determines the legal owner.
